

CH 10 & CH 10 USB

Sennheiser CH 10 Headset Charger (with stand) & CH 10 USB Headset Charger (without stand) for DW Series

Designed for desk sharing or in shift work environments such as emergency centers or call centers, Sennheiser CH 10 is a dedicated alternative to base station charging.

Benefits and Features

- Charging time:
 - Only 1½ hours with dedicated external power supply (400 mA)
 - 3 hours when connected to Sennheiser MCH 7 multi-USB power source

Sennheiser CH 10 has been designed to look appealing, and for mounting in different ways:

- 1) Single, stand-alone charger on a desk
- 2) Cascaded, side by side
- 3) Wall mounted, where space is limited

Discreet and elegant in design, Sennheiser CH 10 matches the DW Series modern style.

Additionally, if there is no room or no need for the charger stand, the DW Series headsets can be charged directly with the Sennheiser CH 10 USB Headset Charger.

Please note that CH 10 requires the headset firmware revision to be V89 or higher.
